## NOTICE OF ALLOWABILITY

### Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-38 and 49-69, drawn to a replicating display for a gaming device, classified in class 463, subclass 16.
- II. Claims 39-48 and 70, drawn to a method for a pay chart for a gaming device, classified in class 463, subclass 25.

The inventions are distinct, each from the other because of the following reasons: Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the replicating display does not employ a pay chart to display game outcomes. The subcombination has separate utility such as listing a player's winnings on a gaming device. These inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and because of their recognized divergent subject matter. Thus restriction for examination purposes as indicated is proper.

During a telephone conversation with Adam Masia on January 3, 2005 a provisional election was made without traverse to prosecute the invention of I, claims 1-38 and 49-69. Thus, the requirement is still deemed proper and is therefore made final. Claims 39-48 and 70 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Authorization for this examiner's amendment was given in a telephone interview with Adam Masia on January 3, 2005.

The application has been amended as follows: Cancel claims 39-48 and 70.

### **Allowable Subject Matter**

Claims 1-38 and 49-69 allowed. The following is an examiner's statement of reasons for allowance: Applicant's arguments filed October 22, 2004, with respect to claims 1-38 and 49-69 have been fully considered and are persuasive. *See Remarks, pp. 16-22.*
